

IRAN'S INTERNET *Laundrette* OPENING SOON?

Iran's government wants a 'clean Internet'...
What's their solution?

A national, secure, managed, and monitored
Internet, hosted inside the country.

1

Dirty Laundry!

2

Invest in detergent!

3

Give it a spin!

**WHITE
WASHING
solution**

MADE IN IRAN

50% SURVEILLANCE
50% CENSORSHIP
100% CONTROL

CARE INSTRUCTIONS

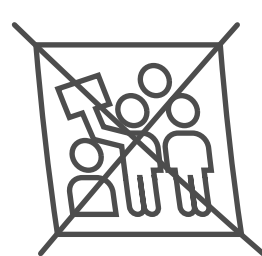

ECONOMIC GROWTH

Boost the economy through development of the technology sector and other sectors by boosting productivity through connectivity.

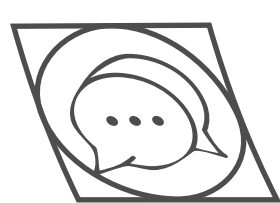

SECURITY

Establish an entirely independent and secured network which provides secure and stable connections, and the possibility of managing information exchange.

POLITICAL CONTROL

Gain control of social movements by monitoring and controlling online expression and access to information

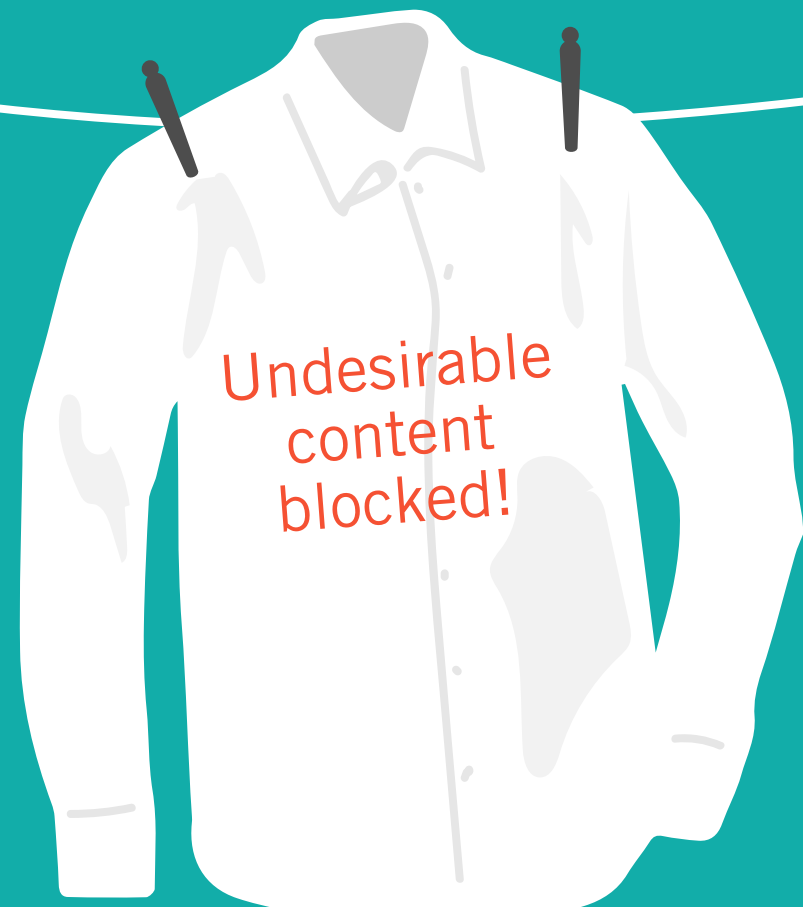

LANGUAGE & CULTURE

Increase the provision of domestic content, approved ideological content, and Farsi-language content

*Spotless
RESULTS*

4 *Hang it out to dry!*

WITH THE
SERVICE?*
READ OUR [REPORT!](#)

THE GOVERNMENT OF IRAN MUST HALT PLANS
TO MONITOR, LIMIT OR CUT OFF ACCESS
TO THE WORLD WIDE WEB

IF YOU ARE A GOVERNMENT OR UN AGENCY

Raise concerns internationally around the free flow of information in Iran

IF YOU ARE AN INTERNATIONAL TECHNOLOGY COMPANY

Engage with Iran, but practice corporate social responsibility

IF YOU ARE PART OF THE IRANIAN ONLINE COMMUNITY

Be vigilant about state threats, learn more [here](#)
